

CURRIE'S
MULTI-CUT

Sticker Round

25mm

IMPORTANT

Anything beyond the white dotted line will be trimmed off.

Bleed (3mm)

The bleed area extends 3mm beyond the edge of your finished document.

Colors and images must extend beyond the edge of the document to prevent unwanted white borders around the edges of your finished document. Note that this 'bleed' will be trimmed during the finishing process so ensure that no important details are set up to print in this area.

Safe Area (3mm)

It is recommended that your artwork is at least 3mm from the edge of the page if it is not meant to be cut off. Instructions placed too close to the edge of a page may look unprofessional when the page is trimmed.
