

Sticker Square 25mm

IMPORTANT

Anything beyond the white dotted line will be trimmed off.

Bleed (3mm)

The bleed area extends 3mm beyond the edge of your finished document. Callouts and images mark extend beyond the edge of the document, to provide a untrimmed white border around the edge of your finished document. Note that this 'bleed' will be trimmed during the finishing process to ensure that no important details are cut, so to print, in this area.

Safe Area (3mm)

It is recommended that your artwork is at least 3mm from the edge of the page if it is not meant to bleed off. Printed borders placed too close to the edge of a page may look uneven when the job is trimmed.
